

Five Nights at Edward's SECURITY SURVIVAL GUIDE

YOUR OBJECTIVE

Survive the night by balancing doors, cameras, special mechanics, and your limited resources.

CORE RULE

Don't stay focused on one threat for too long. Keep a quick, repeatable checking rhythm.

THE BASIC NIGHTLY LOOP

1

CHECK THE CAMERAS

Quickly locate Edward, NomNom, Shiny Edward, Big, and Business Edward as needed.

2

HANDLE IMMEDIATE THREATS

Deal with an active door threat or Soy Sauce Edward in the office.

3

MAINTAIN YOUR SPECIAL MECHANICS

Use the audio lure and manage Camera 03. Smiley requires no action.

4

WATCH YOUR POWER

Big drains your power, while unnecessary door usage can make your situation worse.

5

REPEAT

The later the night gets, the more important a fast and consistent routine becomes.

EDWARD

DOOR THREAT

- Edward comes to the doors.
- Track him through the cameras.
- When he reaches a door, close the appropriate door to stop him.
- Open the door again once the threat has passed to conserve power.

TIP: Don't keep a door closed longer than necessary.

SMILEY

CAMERA SABOTAGE

- Smiley can sabotage the camera system.
- You do not need to do anything for Smiley.
- His sabotage simply makes the cameras harder to use temporarily.
- Continue managing the other characters while the cameras are affected.

TIP: Don't waste time trying to stop or fix Smiley. Focus on the threats you can actually respond to.

SHINY EDWARD

AUDIO LURE

- Shiny Edward must be controlled using the audio lure.
- Locate him on the cameras.
- Use the audio lure to pull him away from dangerous areas.
- Keep monitoring him and move the lure when needed.

TIP: Use the lure deliberately instead of wasting activations.

BIG THE BOULDER

POWER DRAIN

- Big drains your power.
- His mechanic is resource pressure rather than a direct kill.
- Be especially careful with your remaining power later in the night.

TIP: Big becomes more dangerous when you're already low on power.

NOMNOM

DOOR THREAT

- NomNom also travels toward the doors.
- Check his position regularly on the cameras.
- Close the correct door when he reaches it.
- Reopen the door when it is safe.

TIP: Comes to the right side door.

SOY SAUCE EDWARD

MASK

- Soy Sauce Edward appears directly in the office.
- Put on the mask when he appears.
- Keep the mask on while he is present.
- Remove it after the threat has passed and return to your normal routine.

TIP: React quickly when he appears in the office—the mask is your defense.

BUSINESS EDWARD

PAY METER

- Business Edward is managed through Camera 03.
- Check Camera 03 and fill the pay meter.
- Check back periodically so the meter doesn't become a problem.

TIP: Treat his pay meter as a recurring task instead of waiting until the last second.

REMEMBER

You don't need to watch everyone constantly. Check quickly, respond to the most important threat, and return to your overall routine.
